

# Dream Gate®

MODEL:

## CONCEPT ONE

# SWING GATE OPERATOR

Electromechanical low voltage operator for swing gates, leaf length up to 3m, leaf weight up to 350kg, residential use

**24V**  
motor

ISO 9001

BUREAU VERITAS  
Certification

Certificate No. Q130047

# SWING GATE OPERATOR

**24V**  
motor

MODEL:  
**CONCEPT ONE**

Low voltage operator

**350KG**

Max leaf weight

Leaf length up to 3m

## Features

- Low voltage safety and new design of Concept One makes it the ideal irreversible gearmotor for residential swing gates
- Maximum anti-squash safety guaranteed by a special electronic device, adjustable for each motor.
- Operation is guaranteed by a battery back up unit.
- Slowdown may be set at 2 different speeds during both opening and closing (from the control panel).
- Adjustable figure brackets

## Technical Details

Model	<b>Concept One</b>
Power supply	<b>24 Vdc</b>
Absorbed power	<b>25 W</b>
Max. leaf weight	<b>350 kg</b>
Max. leaf length	<b>3 m (without electric lock)</b>
Rod working stroke	<b>270 mm</b>
Opening / closing	<b>120° 9 sec</b>
Impact reaction	<b>Torque limiter on control panel</b>
Environmental conditions	<b>from -10°C to + 50°C</b>

Specification is subject to change without prior notice.

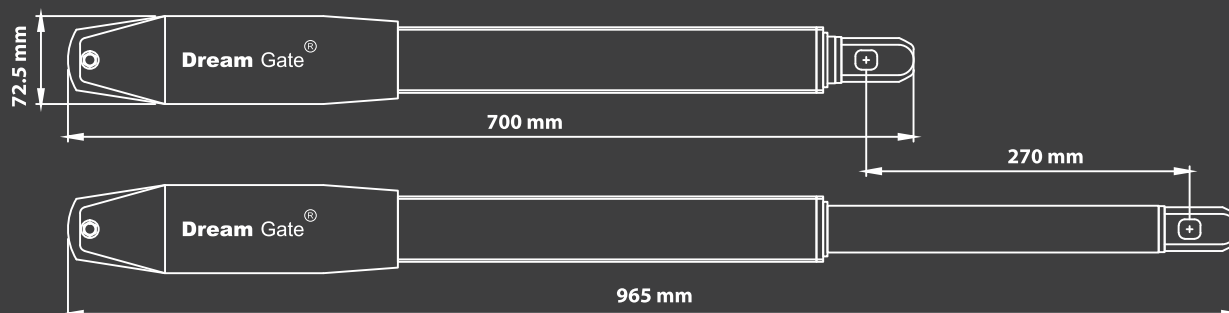

Accessories

Panel Box
